

## ASTM D8003

The system features ASTM Method D8003, "Standard Test Method for Determination of Light Hydrocarbons and Cut Point Intervals in Live Crude Oils and Condensates by Gas Chromatography."

### Features & Benefits

- High Pressure Liquid Injection System (HPLIS) for complete transfer of heavies to C24
- Speciation to C10, Cut Point Intervals to C24, and C24+
- Simple design
- Quality construction
- Best serviceability

HPLIS and Auxillary Valve Oven for ASTM D8003
